

MEJO 433-002 – UX STRATEGY AND DESIGN | SPRING 2020

UNC Hussman School of Journalism and Media

3 Credits | Wednesday at 9:00 a.m. to 11:45 p.m. | Carroll Hall, Room 253

INSTRUCTOR

Lisa Villamil
Assistant Professor
School of Media and Journalism
University of North Carolina at Chapel Hill
Carroll Hall, 330
Chapel Hill, N.C. 27599
lisa_villamil@unc.edu
919.843.0039 (o)

OFFICE HOURS

Tuesday | 10:30 a.m. to 12:00 p.m. or by appointment

COURSE DESCRIPTION

Immersion in experience design (XD) for products and services with a focus on digital user experience (UX), interface design (UI), analytics and marketing strategies. Students use design thinking, research, data, testing, business models, social media, and optimal conversion to engage diverse audiences. Required preparation: prior or concurrent visual design course, internship, or work experience demonstrating basic graphic design skills.

APPROACH

This course will teach you how to think and design as a best-practice UX/UI and interaction designer placing user needs, client needs, digital framework and time limitations front and center of your work process. You will learn to respect and take advantage of the many disciplines involved in developing great digital product and service design. These include business, marketing, information technology, information architecture, copywriting, messaging, sales, visual design, education, and entertainment. This course is progressive in nature and centered on a series of studio projects as well as lectures, readings, tutorials, and quizzes. Design is also an intellectual activity so we will discuss and critique professional and student design work during the semester. This will deepen your appreciation of experience design and teach you how to professionally evaluate and articulate strategic and creative ideas.

OBJECTIVES

Upon completion of this course, students should be able to:

- Empathize with customers and users in order to design human-centered products
- Apply brand and business strategies in order to design sustainable products
- Design alone or collaborate with team members using a design thinking process
- Use best practice digital tools for project management and coordination
- Conduct usability, design, and marketing research using various qualitative and quantitative methods
- Convey user research findings with personas, journeys and scenarios
- Demonstrate sketching as a process for problem-solving in user experience design
- Design products with a human-centered user experience strategy and brand-driven user interface
- Appreciate the process of user experience design as a cyclical, iterative process
- Learn to give and accept critiques of design ideas in a constructive manner
- Analyze a design problem and propose a user-centered process, justifying the process, identify trade-offs
- Determine the most appropriate and useful prototyping technique to evaluate the design
- Prepare high quality, professional documentation and artifacts relating to the design process for a professional portfolio

- **ATTENDANCE POLICY**

Regular class attendance is a student obligation. Students are responsible for all of their work, including assessments, tests, and written work, and for all class meetings. If a course instructor chooses to take attendance and sees that a student misses three or more consecutive class meetings or misses more classes than the course instructor thinks advisable, the instructor may report the facts to the student's advisor and/or academic dean.

No right or privilege exists that permits a student to be absent from any class meetings, except for these University Approved Absences:

1. Authorized University activities
2. Disability/religious observance/pregnancy, as required by law and approved by Accessibility Resources and Service and/or the Equal Opportunity and Compliance Office (EOC)
3. Significant health condition and/or personal/family emergency as approved by the Office of the Dean of Students, Gender Violence Service Coordinators, and/or the Equal Opportunity and Compliance Office (EOC).

For further information see <http://catalog.unc.edu/policies-procedures/attendance-grading-examination/#text>

CLASS EXPECTATIONS

Most class sessions will consist of lecture, discussion and independent lab time to work on current projects. Students should plan on spending a generous amount of additional lab time outside of class to complete readings, tutorials, and projects. You are expected to come to every class on time, interact with your classmates and me, and work hard inside and outside of lab. Once class has started, you are expected NOT to check your cell phone or browse non-course related websites during class. This is distracting to students around you and to me. Also, please be aware that you will be working in a computer lab alongside students with laptop computers. Drinks are not allowed on desks next to computers. No food is allowed. If you must eat, please make arrangements with me prior to class.

REQUIRED MATERIAL

Textbook (required)

UX Strategy (2015)

Jamie Levy

O'Reilly

ISBN- 978-1449372866

TUTORIALS (required / free and online)

LinkedIn Learning / A subscription is free to UNC students. <https://software.sites.unc.edu/linkedin/>

SOFTWARE (required / free and online)

This course uses several applications and services from the Adobe Creative Cloud. UNC Chapel Hill provides students with a free subscription to Adobe Creative Cloud. Directions for accessing Adobe CC and the required UNC Virtual Private Network (VPN) are provided on the Sakai course site.

ADDITIONAL COURSE MATERIALS

Wireless mouse

No-line sketchbook (any size)

File back-up system using UNC Microsoft OneDrive or an external hard-drive

DETERMINATION OF GRADE

GRADING SCALE

A	=	94 and higher
A-	=	90 – 93
B+	=	87 – 89
B	=	84 – 86
B-	=	80 – 83
C+	=	77 – 79
C	=	74 – 76
C-	=	70 – 73
D+	=	67 – 69 *
D	=	64 – 66
F	=	63 and below *

** A semester grade below a C- requires repeating this course to earn credit.*

GRADING RUBRIC

Professional Practice: 15% (attendance, using best practices for design processes)

Quizzes: 15% (demonstration of UX and business strategy fundamentals)

Design projects: 70% (creativity, strategy, design, execution)

EXPLANATION OF COURSE LETTER GRADES

- A Excellent: Mastery performance that is above and beyond (original)
- B Strong: Strong performance demonstrating a high level of attainment (competent)
- C Adequate: An acceptable performance demonstrating an adequate level of attainment (solid)
- D Marginal: Performance demonstrating a minimal passing level (weak)
- F Fail: For whatever reason, an extremely poor performance (unacceptable)

EXPLANATION OF DESIGN GRADING AND FEEDBACK

Your grade will be based on objective and subjective criteria as is the standard in creative arts and media as well as in professional practice where your work will be evaluated by clients and supervisors of differing backgrounds and understanding.

To help you develop as a designer and creative strategist, I use a grading rubric that helps you understand your strengths and weaknesses. In class, you will receive ongoing feedback and evaluation during the design-making process and through formal class critiques. Feedback takes the form of one-on-one instructor/student conversations, peer critiques, class critiques, online critique forums, and grading comments. I cannot stress enough the importance of these conversations. I recommend you listen carefully and write notes in your sketchbook to accelerate your learning.

All grades and all course materials are posted on the course Sakai site. You can access information 24/7.

HONOR CODE

I expect that each student will conduct himself or herself within the guidelines of the University honor system (<http://honor.unc.edu>). All academic work should be done with the high levels of honesty and integrity that this University demands. You are expected to produce your own work in this class. Using a set-up sound bite is a violation of the honor code. If you have any questions about your responsibility or your instructor's responsibility as a faculty member under the Honor Code, please see the course instructor or Senior Associate Dean C. A. Tuggle, or you may speak with a representative of the Student Attorney Office or the Office of the Dean of Students.

SEEKING HELP

If you need individual assistance, it's your responsibility to let me know. The time to seek help is as soon as you are aware of the problem – whether the problem is difficulty with course material, a disability, or an illness.

DIVERSITY

The University's policy on Prohibiting Harassment and Discrimination is outlined in the 2011-2012 Undergraduate Bulletin <http://www.unc.edu/ugradbulletin/>. UNC is committed to providing an inclusive and welcoming environment for all members of our community and does not discriminate in offering access to its educational programs and activities on the of age, gender, race, color, national origin, religion, creed, disability, veteran's status, sexual orientation, gender identity, or gender expression.

Special Accommodations:

If you require special accommodations to attend or participate in this course, please let the instructor know as soon as possible. If you need information about disabilities visit the Department of Disability Services website at <http://disabilityservices.unc.edu/>

ACCREDITATION

The School of Journalism and Mass Communication's accrediting body outlines a number of values you should be aware of and competencies you should be able to demonstrate by the time you graduate from our program. Learn more about them here:

<http://www2.ku.edu/~acejmc/PROGRAM/PRINCIPLES.SHTML#vals&comps>

No single course could possibly give you all of these values and competencies; but collectively, our classes are designed to build your abilities in each of these areas. In this class, we will address a number of the values and competencies, with special emphasis on the last six bullet dots under "Professional values and competencies" in the link above.

SCHEDULE

WEEK 1 | January 8 | Introduction: Professional practice

WEEK 2 | January 15 | Human-centered design: Context, framing a project

WEEK 3 | January 22 | Design thinking: Process, ideation and user

WEEK 4 | January 29 | Business strategy: Process, validation and brand

WEEK 5 | February 5 | UX/CX strategy: Flow and journey

WEEK 6 | February 12 | Usability research: Design and product research

WEEK 7 | February 19 | Iteration: Product development

WEEK 8 | February 26 | UI: Interface design experience

WEEK 9 | March 4 | Design Research: Prototyping

WEEK 10 | March 11 | Spring break

WEEK 11 | March 18 | Engagement: Context, framing an experience

WEEK 12 | March 25 | Conversion: Building committed user-brand relationships

WEEK 13 | April 1 | Final project

WEEK 14 | April 8 | Final project

WEEK 15 | April 15 Final project

WEEK 16 | April 22 | Presentation

Last day of classes: Friday, April 24, 2019

FINAL EXAM: Monday, May 4, 2019 at 10 a.m. in Room 253 (mandatory attendance)
