Time: Sect. 001 M/W 2:00-3:15 p.m.
Hours: By Appointment - Zoom

IMPORTANT: Due to the impact of COVID-19, this course is accessible only in a virtual format (online with Zoom); however, students are still expected to complete and submit all assignments by the stated deadlines given, through digital uploads onto Sakai, using the Assignments tab, etc. Let’s stay safe ... let’s be smart and flexible!

Course Overview: “Crisis Communication” provides a comprehensive assessment and understanding of the nature of crises. It also examines the role public relations professionals play in helping corporate, nonprofit, government organizations and individuals to manage and find success through optimal use of mass communication theories and best practices. The course introduces students to the distinctive areas of crisis research and practice as identified by leading crisis theorists—prevention, preparation, recognition, response and post-crisis concerns. It also focuses on the three stages of crisis: 1) pre-crisis; 2) the crisis event; and 3) post-crisis.

Course Objectives: By the end of this course, students should be able to demonstrate the following competencies:

- (1) List and explain key terms and principles of contemporary crisis communication management.
- (2) Explain the role of communication, per the National Incident Management System (NIMS), and apply relevant aspects of that system to hypothetical crisis situations.
- (3) Apply crisis communication theories, principles and strategies; understand critical legal and ethical issues.
- (4) Analyze, critique and develop a crisis communication plan.
- (5) Demonstrate media engagement knowledge and skills, along with effective presentation skills for crisis management and crisis communication.

Prerequisites: To take this course as an undergraduate you should have successfully completed MEJO 153 “News Writing and MEJO 137 “Principles of Advertising and Public Relations” – for the most success on assignments.

Required Texts: *Ongoing Crisis Communication: Planning, Managing, and Responding*, Fifth Edition (2015). W. Timothy Coombs. Sage Publications. ISBN: 978-1-4129-8310-5.

Other Required Resources:

The Federal Emergency Management Agency (FEMA) operates the Emergency Management Institute (EMI). An online training module is accessible online at <https://training.fema.gov/is/courseoverview.aspx?code=IS-700.b>
See IS-700.b *National Incident Management System (NIMS) to complete the training.*

NIMS Online Training

Students are required to complete one (1) self-paced NIMS training module and print out the Certificate of Completion for course credit. The certificate is due for credit as part of the Midterm exam grade.

Assignments and Deadlines: All writing assignments must be typed, correctly formatted and turned in on time. For outside assignments, late papers will receive a reduced grade unless you and I agree before the assignment is due that it can be late. Otherwise the assignment will receive an F. No assignment will be accepted if it is turned in more than 24 hours after its deadline.

Method of study:

Current events, lectures, tabletop exercises, external readings and class discussions about individual and

organizational crisis management are the teaching tools for this course. The professor will present lecture material relevant to crisis cases and, along with guest speakers and supplemental readings, provide real-world examples of a variety of high-profile crisis situations for review and analysis. Group discussion, critical review and practice presentations for crises are the core of the class. Each student is expected to read assigned case material before the class in which it is to be discussed and be prepared to participate actively in crisis case discussions and interactive activities. Ongoing dynamic crisis material will also be presented as current events dictate. NOTE: Class attendance is essential. It will be difficult, if not impossible, to get an "A" in this course without active and thoughtful participation in the discussion of the Crisis Communication cases and tabletop exercises. Students also will be called on to present case facts as well as analyze critical crisis management strategies for class projects.

This course follows the University's Grading Standards:

"A" students do not miss classes during the semester. They read and critically engage all the assigned textbook chapters and any optional readings on reserve before the material is covered in class. Written assignments and exams are not only complete, but cover more than just the minimum requirements. The assignments exhibit proper style and format, are well organized, integrate strategic planning and targeting, and are written precisely and concisely. All materials are turned in on time or early, and all rewrite opportunities are used. These students keep up with current events.

"B" students miss one or two classes during the semester, but these are excused absences. They usually read the assigned textbook chapters and some of the optional readings on reserve in the library before the material is covered in class. Written assignments and exams usually exhibit proper style and formatting, integrate strategic planning and targeting, are well organized, and are written precisely and concisely. All materials are turned in on time, and all rewrite opportunities are used. These students tend to keep up with current events.

"C" students miss one or two classes during the semester, usually excused. They read the assigned textbook chapters and some of the optional readings on reserve in the library just before the material is covered on the exam. Written assignments and exams usually exhibit proper style and formatting, but they do not always integrate strategic planning and targeting and are not always well organized or written precisely and concisely. All materials are turned in on time, and most rewrite opportunities are used. These students sometimes keep up with current events.

"D" students miss three or more classes during the semester and skim assigned readings. Written assignments and exams usually exhibit proper style and formatting, but they often lack integrated strategic planning and targeting and are often not well organized or written precisely and concisely. Materials are not always turned in on time; only some rewrite opportunities are used. Class participation is lacking, and they don't keep up with current events.

"F" students fail to come to class on a regular basis. They miss exams and written assignments, do not actively participate in class discussions, and fail to participate in presentations.

Class Attendance and (Un)Excused Absences: Class attendance is vital for proper crisis preparation and team contribution in 533 Crisis Communication. Each unexcused absence will result in a deduction of 4 points from the Attendance grade. Excused absences are accompanied by a written notification and explanation from an authorized University or MJ-school department for related activities that require an absence from class.

Projects/Exams: A Crisis Communication Plan (final project) and two exams (a midterm and a final) will be given. The midterm exam will be a 75-minute Crisis Communication review and analysis. The final exam will be a 90-minute comprehensive exam that covers the entire semester. Failure to show up for the midterm exam or to make prior arrangements will result in a grade of F. Failure to take the final will result in an AB. Textbooks, readings, in-class discussions and guest lectures will be covered in the exams. NOTE: You should plan to take notes (follow along on your computers) in class as the lecture expands beyond the textbook and information posted on Sakai.

Work handed in by students is expected to be as professional as possible. That includes presentation of material (grammar, spelling, editing, etc.) as well as the quality of ideas. Papers and exams will be graded accordingly with points taken off for poor writing or poor organization, grammar and spelling.

NOTE: All assignments must be typed.

Graduate Students: Students enrolled at the graduate level will be expected to conduct additional research on a topical Crisis Case Study and then manage an in-class press conference demonstrating the recommended messaging strategy to support the Crisis Communication process. Undergraduate students will serve as the media pool and will be instructed to ask questions regarding the messaging strategy and crisis communication plan.

Sakai: I encourage you to use the Sakai Discussion Board feature to discuss client issues among your peers. This is an effective way to ask questions, find out who faces similar challenges/opportunities and share successes. Additionally, all other handouts are/will be posted on Sakai for your convenience. Please consult these materials and use this resource to ensure production of quality case studies and communication tools in this class.

Honor code:

It is expected that each student in this class will conduct himself or herself within the guidelines of the University honor system. All academic work should be done with the high levels of honesty and integrity that this University demands. You are expected to produce your own work in this class, which includes written book reviews, and communication plans. Use of former students' book review(s) constitutes a breach of the honor code and will be dealt with accordingly. It is the responsibility of each student to abide by the UNC Honor Code, which prohibits **plagiarism**, lying, cheating or stealing when these actions involve academic processes or University, student or academic personnel acting in an official capacity; and the Campus Code, which prohibits students from significantly impairing the welfare or educational opportunities of others in the University community. If you haven't read the code in a while, please revisit and honor it!

BOOK REVIEW FORMAT

Each student must read a recently published book (copyright after 2010) and complete a Book Review that discusses a topic related to a Crisis Communication issue or case study. It can support your semester crisis project or be totally different. The instructor must approve book selections in advance in order to satisfy the requirement. Book Reviews should be at least 750 words in length (not including citations), typed and double-spaced. They will be graded in three parts:

Part 1. Synopsis of Crisis situation/facts to include identifying stakeholders (20 points);

Part 2. Analysis of Crisis and (retrospective) Recommended Crisis Management strategies; include course terminology from textbook and lectures (50 points); and

Part 3. Spelling, grammar and editing of Book Review, following these instructions (30 points).

Book reviews should be typed, double-spaced and 750 words in length. Use the heading format below to include the title, editor or author, publisher, copyright date, number of pages in book, price and pbk for paperback or hbk for hardback. Be sure to include a recommendation on whether or not the book is appropriate as supplemental reading for future Crisis Communication courses. Additionally, the book review must be read, peer reviewed (edited) and initialed by at least one other student in the class prior to turning in the final draft.

Sample Book Review Heading:

Taking Our Country Back: The Crafting of Networked Politics from Howard Dean to Barack Obama by Daniel Kriess, Oxford University Press, 2012. 248 pp. \$ 24.95 pbk.

Pay attention to quality journalistic writing as well. Points will be taken off for poor editing and/or grammar, weak organization of ideas and spelling errors. **A grading scale similar to MEJO 153 Newswriting and MEJO 332 Public Relations Writing will be applied.** Clear, succinct and accurate writing is just as important to a public relations professional as it is to a journalist. Be sure that you don't plagiarize material; provide source citations. Remember, if you use an idea from the book, please attribute it to the text's authors.
