COURSE GOALS AND OBJECTIVES

- To understand and apply the fundamentals of lighting in photojournalism

- To learn to see light and develop a personal style
- To enhance your beginning photojournalism portfolio
- To understand basic freelance business practices

At the end of the semester students will be able to:

- Effectively operate basic lighting equipment
- Analyze fashion, still life and portrait lighting techniques
- Conceive and execute conceptual images
- Understand freelance terms & create basic promotional materials

COURSE STRATEGIES

We start with the basics of lighting, and will learn them through assignments that are typical of a photojournalist or freelance photographer.

You will negotiate a contract, produce a portrait series and invoice for a “client”.

You will pitch and produce a final project consisting of a portrait, fashion or illustration series, or picture story.

Lectures will be informal, and may include guest speakers and slide shows with examples of the techniques being discussed.

Labs will include location shoots. Each assignment will be critiqued.

EXPECTATIONS

This class is about light, vision and style. To find your vision, you will need to push outside of your comfort zone daily, take risks and push your personal boundaries.

Take ownership of your learning.

I expect you:

- to have a clear concept and a plan behind your assignments.
- to turn in images that are advanced, properly focused, exposed and toned.
- to make images that have excellent lighting and composition.
- to show professionalism including presentation, ethics and captions.
- to spend the time to be excellent.

Please understand that this class requires a lot of work and a **lot** of *pre-shoot* preparation. Students need to coordinate ideas, people, props, gear and locations. Most problems can be solved by starting early and planning well. Winging it at the last minute rarely works. Excuses for poor planning don't work either. Everyone is experiencing challenges. They are to be expected, in class and later in your career. Be a problem solver and make it your habit to use good planning and preparation.

EQUIPMENT

You will need a digital 35mm HDSLR camera system with manual controls, interchangeable lenses and a flash. We will use multiple flashes and light shaping equipment that is available for checkout from the school. Compared to a lot of professional camera gear, the flashes we use are not expensive. If you can afford to buy your own gear, it will be very useful for freelance like weddings, senior portraits, etc. and should pay itself off after a few jobs. It is an investment, but once you have it you can begin freelancing and gain experience.

Gear can be borrowed from the Park Library through this website:

<https://equipmentroom.mj.unc.edu/>. Here is link to their collection of instruction manuals for the gear they lend: <https://guides.lib.unc.edu/equipment-room/instruction-manuals>.

You may want to consider low interest student loans to buy your own gear. If you borrow from the school, realize you are responsible for any lost, damaged, or stolen equipment, and your access to gear may be limited.

You will need to buy your own CF or SD cards - as large as possible. You should have two hard drives for your personal photography and video archive, one is for backup. I suggest you get at least 4TB drives, USB 3.0 or equivalent. The fastest and most durable drives are the SSD type, but they are pricey.

READING **MONDAYS**

You will not be tested on your reading, but you will write a 1-2 paragraph response on the J489 Facebook page by 5pm the Sunday prior to the due date. Your responses will count towards the participation grade. The reading due dates are listed in the Assignments doc.

PHOTO SUNDAYS

Find one photo project or photographer who utilizes lighting techniques similar to what we're learning in the coming week, and post it to the Facebook page by 5pm Sunday. After 5pm, review your classmate's posts and vote for your fave by "liking" it. We will often talk about the winners the following week.

PORTFOLIO

You will turn in a final portfolio. Details in the Assignments doc.

FINAL EXAM

The final project will be your final exam. The class will meet for a screening and Potluck with other classes, tentatively set for Friday, April 28, at 5:30 pm.

GRADING

I always do my best to be fair and accurate. Please communicate if you are facing unusual challenges.

Our class has some very specific guidelines:

- 1) Assignments are due at the very minute class begins!
- 2) Any assignment not turned in will, obviously, receive zero points.
- 3) Reshoots. You will be allowed to reshoot 2 assignments, due with portfolio.
- 4) You must submit captions and metadata with every image. See LR Workflow.

5) On multi-week projects, you must turn in work for weekly deadlines or lose 5% of the total points.

Although this is a subjective world, there must be a final say, and that is where I come in. I am the editor. The vital element that must be included in any assignment: *Is your concept clear and engaging to the viewer?* By looking at lots of conceptual work over the semester, through PhotoSunday and critiques, you will increase your understanding of what makes a strong concept and how to execute it.

INCLUSIVE AND ACCEPTING SPACE

Everyone is welcome here. We may have difficult discussions in this class, and I want everyone to be mindful of the power of words and how they can impact others.

Simply, be thoughtful of others and be aware of your own privilege.

Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, culture, religion, politics, sexual orientation, gender, and nationalities. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records.

Please be aware that you are bound by the [Honor Code](#) when making a request for a University approved absence. (source: <http://catalog.unc.edu/policies-procedures/attendance-grading-examination/>)

Attendance is absolutely necessary to succeed in this class. We will be moving steadily and covering large amounts of new information in every class. You alone are responsible for the material covered in each session. Even missing a class for a justifiable reason will require you to get the notes from someone else. And you must make every effort to be in class to present your work for critiques.

HONOR CODE:

I expect that each student will conduct himself or herself within the guidelines of the University honor system (<http://honor.unc.edu>). All academic work should be done with the high levels of honesty and integrity that this University demands. You are expected to produce your own work in this class. If you have any questions about your responsibility or your instructor's responsibility as a faculty member under the Honor Code, please see the course instructor or Senior Associate Dean C. A. Tuggle, or you may speak with a representative of the Student Attorney Office or the Office of the Dean of Students.

SEEKING HELP:

If you need individual assistance, it's your responsibility to meet with the instructor. ACCREDITATION:

The School of Journalism and Mass Communication's accrediting body outlines a number of values you should be aware of and competencies you should be able to demonstrate by the time you graduate from our program. Learn more about them here:

<http://www2.ku.edu/~acejmc/PROGRAM/PRINCIPLES.SHTML#vals&comps>

No single course could possibly give you all of these values and competencies; but collectively, our classes are designed to build your abilities in each of these areas. In this class, we will address a number of the values and competencies, with special emphasis on the last six bullet dots under "Professional values and competencies" in the link above.
