Description and Policies

Course Description

Visual design is a problem solving endeavor. In *MEJO 182: Foundations of Graphic Design* you will learn the basic principles of visual communication and how to apply them in concert with design methodologies in order to solve communication and design problems.

During this class you will use Adobe Illustrator, a vector-based drawing program; Adobe Photoshop, an image creation and processing program; and Adobe InDesign, a page layout program which allows you to assemble images and text into multi-page documents.

Building design expertise comes with practice and this class is comprised of a series of readings, homework assignments, exercises, and projects. Design is also an intellectual activity, so we will have discussions and reviews (i.e., critiques) of your work during the semester to help further your understanding of the design principles and processes involved. Because of the structure of this course attendance is necessary for learning and is required (unexcused absences will affect your final grade). **Deadlines are fixed.** If you need to miss a class it is your responsibility to inform me in advance and to subsequently make up the work. You are expected to conduct yourselves within the guidelines of the UNC-CH Honor Code (see p. 9). All work must be completed with the high level of honesty and integrity that this university demands.

Goals of the Course

There are three primary goals for this class:

Software and Production Skills: You should finish the semester with a working knowledge of the three software packages which will enable you to continue learning as you engage in a range of visual design projects.

Design Fundamentals: You should have a basic understanding of how to apply fundamental design principles and graphic design theory to solve problems.

Portfolio: By the end of the course you will have completed three projects suitable for starting a portfolio. As mentioned earlier, design is an intellectual endeavor and an on-going process. This class will not turn you into an expert in design or design software but I hope that you will finish the semester with an appreciation for the design process, a set of useful skills, and a solid foundation for continued learning.

Required Materials

You will be required to use LinkedIn Learning for this course and video tutorials will be made available to you on this site: <https://software.sites.unc.edu/linkedin/> . The tutorials will sometimes be assigned for required viewing.

Additionally, I will assign videos for specific exercises and skills. I will also assign a variety of required reading materials and websites to be supplied during the semester.

Sakai, <https://sakai.unc.edu>, will house our course website.

Notes

The work that you submit is what will be graded. No exceptions.

Late Work: The maximum grade that can be attained for a late assignment (e.g., exercise, project, etc.) will be reduced by 15% for every day that it is late. You have a maximum of one class period to submit late work, otherwise you will receive a zero for the assignment.

You are required to participate in critiques and reviews in class. Reviews are intended to stimulate thought and discussion between you and your colleagues. It is a forum for learning as well as a standard practice for developing ideas.

Please be aware that I reserve the right to reduce grades at the end of the semester in some cases based upon your class attendance, participation in critiques and reviews, and the overall quality of your work.

UNC Honor Code

The Honor Code (<https://catalog.unc.edu/policies-procedures/honor-code/>) forms a bond of trust among students, faculty, and administrators. The University of North Carolina at Chapel Hill operates under a system of self-governance, as students are responsible for governing themselves. As such, our University is transformed into a powerful community of inquiry and learning. The Honor Code embodies the ideals of academic honesty, integrity, and responsible citizenship, and governs the performance of all academic work that a student conducts at the University. Acceptance of an offer of admission to Carolina presupposes a commitment to the principles embodied in our century-old tradition of honor and integrity.

Seeking Help

If you need individual assistance, it is your responsibility to meet with the instructor. If you are serious about wanting to improve your performance in the course, the time to seek help is as soon as you are aware of the problem – whether the problem is difficulty with course material, a disability, or an illness.

Diversity and Policy on Non-Discrimination

I strive to make this classroom an inclusive space for all students. Please let me know if there is anything I can do to improve; I appreciate any suggestions. More broadly, our school has adopted diversity and inclusion mission and vision statements with accompanying goals. The Dean of Students (Suite 1106, Student Academic Services Building, CB# 5100, 450 Ridge Road, Chapel Hill, NC 27599-5100 or [919] 966-4042) has been designated to handle inquiries regarding the University's nondiscrimination policies.

The University is committed to providing an inclusive and welcoming environment for all members of our community and to ensuring that educational and employment decisions are based on individuals' abilities and qualifications. Consistent with this principle and applicable laws, the University's Policy Statement on Non-Discrimination offers access to its educational programs and activities as well as employment terms and conditions without respect to race, color, gender, national origin, age, religion, creed, genetic information, disability, veteran's status, sexual orientation, gender identity or gender expression. Such a policy ensures that only relevant factors are considered and that equitable and consistent standards of conduct and performance are applied.
